TradeNet System Upgrade Go-Live August 12, 2021

[NAIROBI, Thursday August 11, 2021]

KenTrade has upgraded the Kenya TradeNet system to enhance system productivity, avoid technological obsolescence and improve user experience. The TradeNet system upgrade entails a technological refresh to ensure that the system is compatible with recent technological advancements.

Effective 12th August 2021, traders (Clearing Agents & Importer/Exporters) will lodge new Consignment Documents (CDs) through the new upgraded system as highlighted in the roll-out plan. New Consignment Documents (CD) applications to the current TradeNet system by the traders will not be possible. Traders will be directed to submit the applications through the upgraded system.

The Go-Live will be phased out based on the Partner Government Agency (PGAs) rollout plan as per the highlighted table below:
