

What you need to know about i-Screen Kenya System

- **What is the i-Screen Kenya System?**

The i-Screen Kenya portal is a solution for screening potential trading partners globally against lists of sanctioned or high-risk organization. It is accessible from www.iscreenkenya.go.ke

- **What lists does the i-Screen System source its data from?**

The system checks from globally reknowned lists such as Interpol, FBI etc.

- **What is the benefit of the i-Screen to Kenyan trading community?**

This platform is meant to empower the Kenyan trading community by guarding their businesses against risks from international fraudsters.

- **What are the charges to use the System?**

The charges depend on the category one selects or belongs to i.e. Individual, Bank, Insurance, Commercial or Digital Agent Cyber. The tariff for this, can be accessed from the Website.

- **Does the System screen individuals?**

No, i-Screen does not screen individuals' names nor politically exposed persons.

- **How often are the lists updated?**

The lists are always up to date and when new information is received.

- **Do we have a local list -for Kenya?**

Currently there is no list from Kenya. However, plans are underway to develop a local list.

- **What is the up-time of the i-Screen?**

The system is available 24 hours.

- **How long does the system store my screening history?**

The screening history will appear as long as your subscription is up to date.

- **When does my subscription expire?**

This depends on the type of subscription. The System will send a reminder before the expiry date.

- **What can I access when I log in to the i-Screen?**

You will access the system as prescribed by the option you select and tariff you subscribe to.
